2017 Training

Recently we compiled feedback regarding allocating set training nights for each age group next winter season. We acknowledge there are positives and negatives associated with both our current system and the new proposal.

Below is a proposed plan that we aim to achieve in 2017. The plan outlines the preferred training night for each age group. In 2017, there may be some negotiation, however we hope to achieve each age group training within their allocated block for one hour. All team members will train with their own team.

In 2018, the aim is to adopt the plan (or similar) as scheduled training and publish prior to registration.
